EVENT REPORT			

Organ donation by living donors clearly saves lives, improves transplantation outcomes under some circumstances, and reduces recipients' waiting times. It also increases opportunities for patients without living donors to receive organs from deceased donors.

Organ donation is a process in which a person willingly donates an organ of his body to another person. Organ donation can legally take place by the consent of the donor when he is alive. Also, organ donation can also take place by the assent of the next of kin of a dead person.

The only way a deceased donor may be considered for organ donation is after declared dead. The donor's family must authorize the donation. Organs may not be procured without the family's consent, even if the person is listed as a donor on his or her driver's license.

To be an organ donor, it is important to register by signing up for Organ Donation. One needs to fill a prescribed consent form, which can either be downloaded from National Organ and Tissue Transplant Organization (NOTTO) website or accessed from the medical facility that is approached for organ removal.

Prof. Navanath Sarode introduced the speaker, Speakers described about the Maharashtra government's 'my family, my responsibility' anti-Covid-19 drive will create a health map for the state and make its people fit, as Chief Minister Uddhav Thackeray said.

The campaign aims to survey and screen households in the state to detect Covid-19 patients as well as those with other ailments. Volunteers were compiling data of those who had been detected with the infection, those who had recovered and their post-coronavirus situation, the campaign was being extended in Pune to include factories, housing societies and civic wards. 'Unlock' and 'begin again' by authorities, increased the threat of the virus spreading. People to ensure they wear masks and maintain social distancing norms.

My Family, My Responsibility is an attempt to control the pandemic and share responsibility. Need for wearing masks in public spaces and maintaining physical distancing norms and personal hygiene, considering the threat of coronavirus infection and its increasing numbers in Mumbai, Pune and the rural parts of the State.

Every sector have to contribute in this campaign. This is a war to be fought by collective efforts. Why do we have to enforce a law to make people follow safety norms? Why can't we do it on our own?

Every family in the State will be checked on at least twice in the coming month. The health checkup will monitor family members, senior citizens and oxygen levels. In case of ailment, the government health officials will be informed.

Brief Description of Event:

- **Introduction of Observance of Vigilance Awareness Week 2020**

The Vigilance Awareness Week 2020 was observed from 27th October 2020 to 2nd November 2020, under the auspices of Central Vigilance Commission (CVC) to spread awareness against corruption. CVC's theme for this year's Vigilance Awareness Week is "Corruption in India" with emphasis on spreading awareness in fight against corruption to all sections of Society. In line with the letter and spirit of the theme and in accordance with the directives of CVC, several activities were organized covering a wide spectrum of society, with the aim of spreading awareness and sensitizing the public about ways and means to fight corrupt practices. We could muster the support of the print media also, which gave wide publicity to our run-up activities, ahead of the Vigilance Awareness Week.

- **Vigilance Awareness Pledge:**

To spread awareness against corruption amongst the general public, we organized online session to take Integrity Pledge on 27th and 29th October using online zoom application. Total 110 numbers of College faculty members and students had taken Integrity Pledge. Fighting corruption is a global concern because corruption is found in private and public sector, though poor people are the ones that suffer the most. Governments, the private sector, non-governmental organizations, the media and citizens around the world are joining forces to fight this crime. People often think that corruption is "just a way of life", but every society, sector and individual would benefit from saying "NO" to this crime. A mass integrity pledge was taken. The major goal is to change public official's attitude to corruption and integrity, and improve their ethical standards. It is true that reactive measures such as detection and punishment are needed to prevent corruption and enhance integrity.
