The ExtremityIndia Advantage

- Customer-centric Engagement Model
- Global Network Delivery
- Full Services Portfolio
- Innovation

Sourcing and Procurement has become a critical area for companies implementing cost-cutting measures. Core procurement processes and strategic business areas have emerged as key focus areas to drive cost savings. Several companies are outsourcing tactical Sourcing and Procurement processes to third-party vendors. Our end-to-end integrated procurement solutions deliver an optimal mix of competency, skills, tools, and technology through a Global Operating Model. Our alliances with strategic partners provide deep domain expertise and technology enablers.

Consulting

The ExtremityIndia team can provide valuable insights and add value to your thinking in streamlining your business processes. Through our industry standard process tools and methodologies, we can provide gap analyses between current state and desired state processes and identify areas where information technology solutions can provide economic value and increased productivity to your organization. We recognize that after your decision to start using ExtremityIndia software solutions, adoption across your team may well be the single most important success factor. We have business and technology experts available to work with you in groups and one-on-one sessions, to ensure mastery of our solutions. What's more, our customer service philosophy is predicated on responsiveness and commitment to ensure your complete satisfaction
