**Date: 20th -21st
Feb. 2025**

Background of the Conference

This conference aims to bring together leading academician, researchers, and practitioners from around the globe to discuss critical issues and share insights on land, soil, and territorial management, particularly in the Southern regions of the world. As these regions face unique challenges and opportunities, this conference will provide a vital platform for dialogue and collaboration.

Participants will have the opportunity to engage in thought-provoking discussions, present their research findings, and explore collaborative opportunities. The conference will feature keynote speeches and panel discussions by esteemed experts in the field. PhD student's participation is welcome.

We believe your expertise and contributions would be highly valuable to the conference, and we would be honored to have you join us. Your participation will not only enrich the discussions but also help in forging meaningful partnerships aimed at addressing some of the most pressing issues related to land, soil, and territory in the Souths of the world.

Key topics of discussion will include:

- ✓ Sustainable land use and management
- ✓ Soil conservation and fertility enhancement
- ✓ Territorial governance and policy frameworks
- ✓ Impacts of climate change on land and soil
- ✓ Innovative agricultural practices
- ✓ Socio-economic implications of land use changes
- ✓ Urbanization
